Draft Table of Contents

Table of Terms

Introduction

Chapter 1: Administrative Activities
Key Concepts
• Occupancy
• Existing Buildings versus New Buildings
• Self-Identifying Deficiencies
• General Compliance with the *Life Safety Code*
• Interim Life Safety Measures
Tools
- Tool 1-1. Sample Fire Response Plan
- Tool 1-2. Sample Life Safety Drawing Detail
- Tool 1-3. Sample Interim Life Safety Measures Policy
- Tool 1-4. Sample ILSM Assessment and Selection Checklist
- Tool 1-5. Daily Construction Site Safety Inspection Checklist

Chapter 2: General Life Safety Design and Building Construction
Key Concepts
• Minimum Construction Requirements
• Building Rehabilitation
• Fire Barriers
• Protecting Openings
Tools
• Tool 2-1. Height Restrictions for Health Care Occupancies by Construction Type Table
• Tool 2-2. Quick-Look Door Check
• Tool 2-3. Fire Protection—Engineering Controls Checklist

Chapter 3: Means of Egress
Key Concepts
• Means of Egress
• Corridors
• Doors in a Means of Egress
• Exits
• Stairs and Ramps
• Rooms
• Illumination and Signage
Tools
• Tool 3-1. Door and Corridor Egress Assessment Checklist
• Tool 3-2. Compliance Checklist for Door-Locking Mechanisms
• Tool 3-3. Checklist for Compliance with LS.03.01.20

Chapter 4: Barriers, Openings, and Finishes
Key Concepts
• Compartmentation
• Vertical Openings
• Doors in Hazardous Areas
• Windows
• Interior Finishes
Tools
• Tool 4-1. Latch-and-Label Door Assessment Checklist
• Tool 4-2. Alcohol-Based Hand Rub Fire Safety Checklist
• Tool 4-3. Residential Board and Care Fire Protection Features Checklist

Chapter 5: Fire Alarm and Notification Systems
Key Concepts
• Fire Alarm Systems
• Initiation Function
• Notification Function
• Control Function
• Fire Alarm Signal to Fire Department
• Smoke Detection Systems
Tools
• Tool 5-1. Fire Safety Equipment and Building Features Maintenance Policy
• Tool 5-2. Testing by Time Frame

Chapter 6: Fire Suppression Systems
Key Concepts
• Fire Alarms and Sprinklers
• Sprinkler Systems and Components
• Portable Fire Extinguishers
• Fire Suppression in Kitchens
• High-Rise Buildings
Tools of the Trade
• Tool 6-1. Reducing Fire Risks in Health Care Occupancy Kitchens Checklist

Chapter 7: Utilities, Elevators, Chutes, and Other Building Services
Key Concepts
• Gas Piping and Equipment
• Electrical Wiring and Equipment
• HVAC Systems and Equipment
• Vertical and Horizontal Transport
• Linen and Waste Chutes
Tools
• Tool 7-1. Fire Safety Equipment and Building Features and Services Maintenance Assessment Checklist

Chapter 8: Curtains, Mattresses, Linens, and Other Operating Features
Key Concepts
• Smoking and Vaping
• Draperies and Curtains
• Furniture and Mattresses
• Decorations
• Linen and Trash Receptacles
• Engineered Smoke Control Systems
• Portable Space Heaters
Tools
• Tool 8-1. Sample Smoke- and Vaping-Free Policy
• Tool 8-2. Smoke- and Vaping-Free Policy Scripts
• Tool 8-3. Smoke- and Vaping-Free Policy Development Checklist
• Tool 8-4. Decorations Safety Assessment Checklist
• Tool 8-5. Fire Drill Matrix

Chapter 9: The Life Safety Survey Process
Key Concepts
• The On-Site Survey Process
• The Survey Analysis for Evaluating Risk™ (SAFER™) Matrix
• After the Survey
• Continuous Compliance
Tools
• Tool 9-1. Required EC and LS Documentation Checklist
• Tool 9-2. The SAFER Matrix

Appendix: Resources
